DRESS CODE

As was mentioned previously, at this time of year students attempt to take "liberties" with the dress code. Warm weather, Spring Fever, counting the days till the end of the school year all contribute to this lack of focus. Jeans Days cause particular problems. If the student does not want to wear jeans or jean shorts, then the regular school pants/shorts are their only other option. You can help by checking on them before they leave in the morning. The students should ask themselves whether it is worth it to try and "stretch the envelope" and thus lose the privilege of wearing shorts and/or jeans the remainder of the year.
