

## Science Lab wish list:

- New student desks or repair the ones we have
- A decent desk chair
- document Camera and Projector
- A classroom scanner
  
- Basic lab supplies necessary to make the lab run like digital thermometers, balances (electronic or not as long as they actually balance), beakers, graduated cylinders, meter sticks, measuring tapes, lab trays, (not to mention stop watches, salt, sugar, corn starch, food coloring, masking tape, flashlights, gelatin, magnifying glasses, overhead transparencies, plastic tubs, ziploc bags, dixie cups, dry erase board markers, post-it notes, marbles, speed toys, string, poppers, beans, soil, Borax, Christmas tree lights, 6V lantern batteries, scotch tape, dominoes, posters, pencil sharpeners.
  
- A classroom set of 20 graphing calculators (like TI 83 about \$100 each) that could be used with things like the Calculator Based Laboratory (\$171 each) and Calculator Based Ranger (about \$99 each)
